This sometimes leads him to apply his knowledge of history to the present, as when he compares post-World War II Japan to Japan in the 1990s. While

the comparison may seem odd, it is supported by an examination of Japan's recent history and a review of the contemporary media. Nadelstich also uses a brief comparison of the conditions of poverty in Ethiopia and in the United States to explain the effect of economic impoverishment on the psyche of a population. He uses data collected during a lecture tour of the United States in the mid-1980s to demonstrate that though there are very rich countries in the world, "all...Q:
